

Generator Control Panel - Product Catalogue

Specifications

| | |
|-----------------------------------|--|
| Product Type: | Generator Control Panel |
| Panel Types: | Analog Panel, Digital Panel (Auto/Manual) |
| Supported Generator Types: | Diesel and Gas-powered generators |
| Power Capacity: | Up to 2000 kVA |
| Control Modes: | Manual, Auto, Remote |
| Display Features: | Digital LCD/LED screen (Voltage, Current, Frequency, Hours) |
| Alarm Functions: | Overload, Low Oil Pressure, High Temperature, Emergency Stop |
| Communication: | RS485 / Modbus support, Remote monitoring capability |
| Protection: | MCBs, Relays, Surge Protection, Fuses |
| ATS Compatibility: | Yes - Auto Transfer Switch Ready |
| Enclosure: | Metallic cabinet with IP54/IP65 protection grade |
| Power Source: | Self-powered or external 12V/24V DC |
| Dimensions: | Customizable based on generator size |
| Applications: | Industrial Plants, Commercial Buildings, Hospitals, Data Centers |
| Certifications: | CE, ISO9001, Optional UL |
